Harkness has been invited by the race committee of the Automobile Club of America to try his racing car on the course, but has no assurance that having failed to be ready at the appointed time, he will be considered as a candidate. In view of this it is doubtful whether he will take his car out to the course, according to the statement of a friend of his yesterday.

As no secret has been made of the club's plans to hold the tests postponed from last Tuesday to-morrow, it is expected that quite a number of automobile enthusiasts will be on hand. The aport is not of the sort to attract the general public to a spot twenty miles from the city at 5 o'clock in the morning, however, for there is no race; the cars are speeded over the course one at a time. As a native of Westbury put it: "There's nothing to see but a speck on the road, then flast and its a speck in the other direction." For this reason the attendance will probably be confined to a few score of enthusiast. E. R. Galleber, chairman of the technical committee of the American Automobile Association has been invited to attend the tests and inspect the cars. Most of those interested will go to Gurden City this afternoon.

At the request of Princeton, whose baseball team plays Pennsylvania on May 9 on Frank-lin Field, the date of the Columbia-Pennsylvania track meet has been changed to May 8, and it will be held at Philadelphia. Y., as a scheduled game with that institution was cancelled last week on account of the rain.

In view of the limited number of players it has been determined to hold the final round by the Bergen system, by which each man plays every other. Bewall, '6t sciance, of the intercollegizate team, have played for four years and the winners of the novice teurnament will have to take their places in the cellege matches in the fall.

A PREE TREATISE

ON BLOOD POISON IS SENT FOR

We understand that any person sending a name and address to Department B, International Serum Toxin Co., St. James Building, New York, will receive in a plain envelope a valuable explanatory treatise on contagious blood poison. An examination of this interesting little work shows that while a complete medical history of blood poison is given, the language employed is plain, everyday English, which can be readly comprehended. The book is entirely free from obscene pictures or suggrestions, and there are no 'testimonials.' The Sieber serum treatment, however (which is the only curo for specific blood poison), is thoroughly described as to treatment, application and terms. Every person suffering from blood poison, in no matter how advanced a stage, should send to the Company for this valuable book, from which these opening paragraphs are taken:

"And now for the CURE—for the Hope!" The Sieber serum is an animal lymph

which is injected under the skin and which absolutely eradicates every trace of blood poison from the blood, never to return.

"Its application by needle injection subcutaneously is entirely painless and absolutely harmless in results. Its action is instantaneous, and throws off all poisons of the system through the kidneys and bowels."

NEVER CURED AT HOME.

NEVER CURED AT HOME.

Dr. Sleber has been frequently importuned to send his wonderful serum, which is antitioxin to blood poison, to his brother physicians in various parts of the country. The international Serum Toxin Co., which owns and administers this treatment, is slways obliged, however, to refuse such requests. For the patients protection, the treatment is never given except by the doctors especially drilled by Dr. Sleber for the administration of the serum. This Company, however, has offices in New York, Chicago, Wasbington, Boston, St. Louis, Hot Springs and Pittsburg, and will open offices in other cities from time to time. In a year, in fact, there will be no reason why any person suffering with blood poison cannot be completely cured by this wonderful treatment, either at or near their ewn home.

Dougherty. After an absence of several months

After an absence of several months, Casper Leon returned to the ring last Friday night. He met Danny Dougherty of Philadelphia before the Ariel A. C., Philadelphia, for six rounds. Leon looked a sure winner in the opening round. He caught Dougherty a right swing on the law and knocked him down. It looked all over. Dougherty was floored again and on rising he clinched to save himself. He then held on until the gong sounded. In the next two rounds Dougherty pulled himself together and gave Leon a cliff gruelling. Leon was tired and in the fifth round was hanging on. The final round was fast, but Leon's blows were weak. There was no decision.
